

## A Bonus for You from Advantage Software!

In appreciation for your having selected Advantage Software as your CAT vendor and/or computer supplier, Greg Seely, CEO of ASI, has made special arrangements to provide you with **SearchMaster** for a full year, at absolutely **no charge**.

If you purchased Total Eclipse, your SearchMaster CD will be included with your Total Eclipse software; if you purchased a computer, SearchMaster will come presintalled on your computer.

**Note:** SearchMaster is a stand-alone software program that installs to your hard drive, and is not part of the Total Eclipse software, which means there's no need to wait until you've installed your Eclipse before installing and registering your SearchMaster.

Turn on your speakers and click **HERE** for a narrated movie that could change your life for the better and save you huge amounts of time conducting research for your transcripts, just like it does for reporters, scopists, and proofreaders in all 50 states and in 16 countries every single day who use SearchMaster to turn their **research grief into a sigh of relief**.

When your **free 1-year SearchMaster subscription** expires, you can renew the subscription for another year for only \$59, a pretty good deal when you realize that SearchMaster retails for \$289. With this offer, you receive the first year for **free**, after which the subscription cost is \$59 per year, which amounts to a mere \$5 per month for the most powerful time-saver in the entire court reporting world!

In order to qualify for this one-time offer, you **must** install and register your SearchMaster software within **30 days** of receipt of this E-mail.
